

OUR SERVICES

We support organizations with research, surveys, and reports that drive evidence-based impact. Our core services include:

1. Survey Design & Data Collection

We design custom surveys, paper-based or digital, tailored to your sector.

- Community assessments
- Baseline & endline studies
- M&E frameworks

2. Data Cleaning & Processing

We turn raw, messy data into clean, analysis-ready formats.

- Excel, SPSS, Python
- Codebook development
- Quality control checks

3. Data Analysis & Interpretation

We go beyond numbers to deliver clear insights and recommendations.

- Descriptive & inferential stats
- Graphs and dashboards
- Tools: Excel, Power BI, SPSS

4. Report Design & Development

We craft reports that are professional, readable, and funder-ready.

- Research reports
- Donor/funding reports
- PPT & PDF outputs

5. Presentation Design & Strategy

We convert data into crisp, visual presentations.

- Infographics
- Stakeholder slides
- Impact storytelling

Clarity. Insight. Impact.
